SES UGANDA
LIMITED
FOR PROFESSIONAL ENGINEERING SOLUTIONS

1. Company Overview

Sinabulya Engineering Solutions Uganda Limited (SES) is a Ugandan-registered limited liability company established in 2023 to provide integrated engineering, technology, infrastructure and business solutions. The company operates across multiple sectors, with a strong focus on technical services, project delivery, equipment supply, maintenance and client-focused solutions.

Our capabilities span from electrical engineering & renewable energy, E-mobility, Air conditioning & refrigeration, telecommunications and ICT, Real estate and land survey. SES combines technical expertise, project management capability, experienced personnel and access to appropriate tools and equipment to engineer practical solutions aligned with client requirements.

Our approach is built on a simple principle: understand the client's needs, develop the right solution, execute professionally, and deliver measurable value without compromising quality, safety or professional standards.

Our Strategic Position

SES is positioned as multi-disciplinary technical solutions partner capable of supporting projects from planning and surveys through implementation, commissioning, maintenance and technical support. Our personnel and associates bring combined experience in project planning, project management, engineering operations and technical service delivery.

2. Vision, Mission & Strategic Objective

VISION	To become an innovative and trusted service provider and supplier, delivering exceptional engineering, technology and business solutions in a rapidly evolving world.
MISSION	To understand our clients' businesses and challenges, develop practical and innovative solutions, and deliver services that contribute to customer satisfaction, operational efficiency and long-term value.
STRATEGIC OBJECTIVE	To provide relevant, reliable and innovative products and services supported by professional expertise, quality execution and a strong commitment to value for money.

3. Our Core Values

Integrity: We conduct our business with honesty, fairness, accountability and respect.

Professionalism: We maintain high standards of technical competence, conduct and service delivery.

Quality: We strive to meet or exceed client expectations through disciplined execution and continuous improvement.

Safety: We prioritize the health and safety of our employees, clients, contractors and the public.

Innovation: We seek practical and efficient ways to solve complex challenges and improve outcomes.

Client Focus: We listen, understand and work closely with our clients to deliver solutions that create value.

Teamwork: We believe strong collaboration between our technical team, clients and partners leads to better project outcomes.

4. Why Choose SES

Multi-disciplinary technical capability under one organization.

Experienced engineers, technicians, managers and project personnel.

Ability to mobilize human resources, tools, equipment and project support resources.

Strong focus on quality, safety, professional standards and client satisfaction.

Practical solutions designed to meet the specific requirements of each project.

Capability to support projects from survey and planning through implementation, commissioning and maintenance.

Commitment to timely project delivery and long-term client relationships.

SES UGANDA LIMITED FOR PROFESSIONAL ENGINEERING SOLUTIONS

5. Our Services & Technical Capabilities

SES provides a broad range of professional services through specialized business divisions. Our principal service areas include:

5.1 Electrical Installation & Power Line Services

We provide professional electrical installation, overhead power line construction, and maintenance services for residential, commercial, industrial, and utility projects. Our experienced team is committed to delivering safe, reliable, and high-quality electrical solutions that meet industry standards and exceed client expectations.

Our Services Include;

- Power line design, installation and commissioning
- Low Voltage (LV) and Medium Voltage (MV) overhead power line construction
- Electrical wiring for residential, commercial, and industrial buildings
- Transformer installation and commissioning
- Pole erection and conductor stringing
- Electrical fault diagnosis, repairs, and maintenance
- Distribution board (DB) installation and upgrades
- Lighting and power outlet installations
- Earthing and lightning protection systems
- Electrical inspections, testing, and commissioning
- Electrical system upgrades and energy efficiency solutions

Quality • Safety • Reliability • Professionalism

5.2 Renewable Energy

Harnessing the Sun. Powering Progress. Building a Sustainable Future.

As the demand for reliable, affordable and sustainable energy continues to grow, solar power provides a clean and practical solution for homes, businesses, industries and communities.

At Sinabulya Engineering Solutions (U) Ltd, we design, supply, install and maintain solar energy systems tailored to the specific needs of our clients. Our solutions are designed to provide reliable power, reduce dependence on conventional energy sources and support long-term energy sustainability.

From small residential systems to commercial, industrial and off-grid installations, we combine professional engineering, quality equipment and practical field experience to deliver solar solutions that perform.

Every energy requirement is different. We assess the client's load profile, energy consumption, site conditions and future needs before developing an appropriate solution.

Our approach focuses on:

Assess. Design. Install. Optimize. Maintain.

We support clients throughout the complete life cycle of their solar investment—from initial site assessment and system design to installation, commissioning, maintenance and future expansion.

Our Solar Energy Services Include;

- Solar PV system design, sizing, installation and maintenance.
- Solar components supply and installation.
- Grid-tied solar systems
- Off-grid solar power systems
- Hybrid solar systems
- Solar water pumping systems
- Solar street and security lighting
- Preventive and corrective maintenance
- Solar energy audits and feasibility studies

5.3 Electric Mobility (E-mobility)

Powering the Journey to a Cleaner, Smarter Future with zero carbon emissions

The future of transportation is electric, and SES is positioned to support the transition to sustainable mobility.

We provide professional electric mobility solutions, including EV charger installation, electrical infrastructure development and two-wheeler battery swap station solutions.

From site assessment and system design to installation, commissioning, maintenance and technical support, we help businesses and mobility operators build reliable electric transportation infrastructure.

Our services include;

- AC and DC Electric Vehicle (EV) charger installation for residential, commercial, fleet and public charging applications.
- Two-wheeler auto battery swap stations installation and maintenance.

- Charger monitoring, operational support and maintenance planning.
- Troubleshooting, fault diagnosis, repairs and technical support.
- Preventive and corrective maintenance of EV chargers and associated electrical systems.
- Testing, commissioning and functional verification of EV charging systems.
- Installation of protective devices, cabling, distribution equipment and associated electrical infrastructure.
- Site assessment, electrical load evaluation and infrastructure planning for electric vehicle (EV) charging projects.
- Supply, installation and commissioning of electric vehicle (EV) charging stations.

5.4 Security Systems & Surveillance

Security is no longer just about responding to threats—it is about the 3D's (prevent, detect, deter)

At Sinabulya Engineering Solutions (U) Ltd, we provide integrated security and surveillance solutions designed to protect homes, businesses, industrial facilities, fuel stations, offices and other critical environments.

We combine modern technology, reliable installation practices and professional technical support to help our clients monitor, manage and secure their premises with confidence.

We design and implement security systems that can be integrated to provide a complete security solution. This may include CCTV surveillance, access control, intercom systems, alarms and network infrastructure working together to provide improved visibility, control and protection.

Our Services Include;

- CCTV camera supply and installation
- Remote CCTV monitoring and mobile viewing
- Access control systems
- Biometric and card-based access systems
- Video door phones and intercom systems
- Intrusion detection and alarm systems
- Perimeter security solutions
- Time and attendance systems
- Preventive and corrective maintenance
- Integrated Security Solutions

See more. Control better. Stay secure.

5.5 Air Conditioning & Cold Room Solutions

Creating Comfort. Protecting Products. Controlling the Environment.

Temperature control is essential for modern homes, businesses, industries and specialized facilities.

At Sinabulya Engineering Solutions (U) Ltd, we provide professional air-conditioning and refrigeration solutions designed to deliver comfort, reliability and efficient temperature control. We also support cold-room projects for businesses that require controlled environments for the storage and preservation of perishable goods.

Our Services Include;

- Supply and installation of air-conditioning systems
- Residential, commercial and industrial air-conditioning solutions
- Split, cassette, ducted and other air-conditioning systems
- Air-conditioning servicing and preventive maintenance
- Fault diagnosis, troubleshooting and repairs
- Refrigeration system installation and maintenance
- Cold-room design and installation
- Cold-room servicing, repairs and maintenance
- Temperature control and monitoring systems
- Refrigeration equipment supply and technical support
- Energy-efficient cooling solutions

Comfort when you need it. Cold when it matters.

SES UGANDA LIMITED FOR PROFESSIONAL ENGINEERING SOLUTIONS

5.6 Real Estate & Land Survey Services

Turning Land into Opportunity. Delivering Confidence in Every Transaction.

At SES, we understand that every successful property investment begins with accurate information, proper planning and confidence in the land being acquired or developed.

Our Real Estate and Land Survey Services provide professional solutions for land acquisition, property development and land management.

Our services include;

- Boundary opening and re-establishment
- Topographical and detail surveys
- Site surveys for construction and development
- Subdivision and amalgamation surveys
- Land demarcation and boundary verification
- Construction setting-out and engineering surveys
- Land measurement and area verification
- Property investment consultancy
- Land acquisition support
- Property development planning support

Measure accurately. Invest wisely. Develop confidently.

6. Quality, Health, Safety & Environment

6.1 Quality Commitment

SES is committed to delivering products and services that meet client requirements and applicable professional standards. We promote quality assurance, documented processes, competent personnel, effective supervision and continuous improvement.

6.2 Health & Safety Commitment

The health and safety of our employees, clients, contractors and the public are our core responsibility. We seek to identify hazards, control risks, provide appropriate training and equipment, and promote safe work practices across all activities.

SES UGANDA LIMITED FOR PROFESSIONAL ENGINEERING SOLUTIONS

6.3 Environmental Responsibility

SES recognizes the environmental impacts that may arise from its activities. We are committed to responsible resource use, waste minimization, environmentally responsible disposal practices and compliance with applicable environmental requirements.

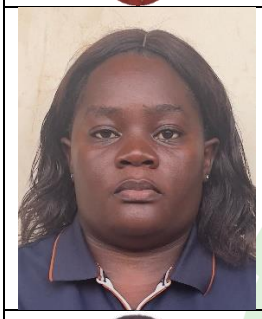

7. Organizational Structure

SES is supported by a management and technical structure designed to provide clear accountability, effective project coordination and professional service delivery.

i. Board of Directors
ii. Managing Director
iii. Chief Operations Officer (CTO)
iv. Chief Financial Officer (CFO)
v. Projects Manager
vi. Projects Engineer
vii. Procurement & Logistics Manager
viii. Financial Accountant
ix. Internal Auditor
x. Consultants
xi. Supervisors & Technicians
xii. Casual and Project Support Personnel

8. Our Team
